Subject: S-2XX number for PCMF

Dear Mikael and Minsu,

It was very good seeing you last week. I trust you got home well.

As you know and I explained last week we are working on a draft for a Port Call Message Format, developed and validated during STM Validation project, in an S-2XX compliant format and for submitting this to IALA for further consideration and eventually integrating this in the IALA Domain at the IHO GI Registry (CMDS).

As we are trying to get this to a certain point of maturity, I was wondering if you can assign an S-2XX number for PCMF we could use, rather than referencing it as S-2XX.

Please let me know.

Thanks for your help and good cooperation.

With my very best regards

Michael Bergmann - MBA FRIN AFNI
