LIAISON NOTE

Quality Management System for VTS and Recommendation R0132

1 INTRODUCTION

The VTS Committee requested that ARM note their commencing with the task to develop a specific QMS guideline for the VTS realm and that it is expected to be completed at VTS56. Upon completion the recommendation R0132 will need to be updated to refer to the new guideline.

2 DISCUSSION

The ARM Committee has drafted an update to recommendation R0132 and will finalise this once the new VTS QMS guideline is completed. The recommendation itself speaks of QMS in broad terms and then refers to the relevant guidelines, it is unlikely that the contents of the recommendation will need to be updated other than to refer to the VTS guideline. However, the VTS committee is welcome to request changes if any need for update is identified.

3 ACTION REQUESTED

The VTS committee is requested to:

- 1 Review the draft recommendation R0132 and if necessary provide feedback to the ARM committee to adapt the recommendation to accurately refer to the new VTS QMS guideline.
