

**IALA COUNCIL  
55<sup>th</sup> Session**

**May 27 - 31, 2013  
Busan  
Republic of Korea**

**Agenda item 9 – IALA TECHNICAL ACTIVITIES**

**9.4 e-NAV**

**9.4.1 Documents for approval**

***9.4.1-5 - Draft submission for an unplanned output to  
prepare performance standards for multi-system  
shipborne navigation receivers to NSCR1***

**Note by the Secretariat**

The draft submission is at Paper C55/9.4.2-5A. It is intended to form the basis for a submission by one or more national members, in conjunction with IALA and CIRM.

The document contains a more mature version of a previous draft performance standard than was contained in the original submission made to MSC90 (May 2012), when the unplanned output was approved for two sessions of the NAV Sub-Committee.

**Action requested of the Council**

The Council is requested to consider the proposal at Paper C55-9.4.1-5A, with a view to approving its use by member states and encouraging their own National member at IMO to support it.
