

## IALA COUNCIL

### 63<sup>rd</sup> session

13-16 December 2016  
IALA Headquarters

## 11 – IALA TECHNICAL ACTIVITIES

**11.2 – ENG**

### 11.2.7 – ENG1 Model Courses for formal approval

Note by the Secretariat

#### 1. INTRODUCTION

In 2014 there was an attempt to reschedule IALA meetings for the working period 2014-2018, to have the Council meet in March and September each year, with the Committees meeting from late October to late November and late April to late May of each year. This worked well with the Committees but the Council continued to meet in June and December as before and this led to delays in the submission of input papers from the two Committees that had sessions in May and November, which could not meet the deadline for submission.

#### 2. IMPACT OF REORGANISATION ON SUBMISSIONS TO THE COUNCIL

The first meeting of the ENG Committee (ENG1) was not able to submit 4 draft Model Courses to the next Council session, and the drafts were to be kept on hold until the following session. Unfortunately, they were forgotten when the following Council was prepared, while the Academy published them as approved on its section of the IALA Website.

#### 3. MODEL COURSES AWAITING APPROVAL

The four Model Courses concerned are the following:

- L2 1.7 Buoy moorings, Ed.2 (see input paper C63-11.2.7.1)
- L2 2.1 DC power systems Ed.2 (see input paper C63-11.2.7.2)
- L2 2.2 Primary and secondary battery maintenance Ed.2 (see input paper C63-11.2.7.3)
- L2 2.3 Photovoltaic (solar panel) systems and maintenance Ed.2 (see input paper C63-11.2.7.4)

#### 4. THE COUNCIL IS REQUESTED TO

**Formally approve** the four Model Courses listed above noting that they are still in the old format but are on the list for the next reformatting.
