C64-11.3.3
(VTS43-12.1.1)
24 March 2017

LIAISON NOTE

Suggested name change for a work item

1 SUGGESTED CHANGES

The VTS Committee is tasked to provide a “Guideline on the technical interface between VTS systems and the systems of other stakeholders” in Task 2.3.1 of the VTS Work Programme 2014 - 2018.

The VTS Committee see that a clarification of the content of that guideline in the title could be beneficial. Our proposal is to provide a “Guideline on technical aspects of VTS information exchange between VTS and allied or other services”, as this will be more in line with the content of the guideline and also aligned with the Guideline 1102 on VTS Interaction with allied or other services.

2 ACTION REQUESTED

Council is requested to **approve** the change of the name of Task 2.3.1 in the VTS Work Programme 2014-2018 into “Provide a guideline on technical aspects of VTS information exchange between VTS and allied or other services”.
